

Oak Ridge

REINDUSTRIALIZATION

An Asset Revitalization Initiative

Reindustrialization Transfers:

693 Acres **14** Buildings **332,000** Square Feet

Heritage Center Industrial Park offers new facilities and ready-to-build sites

RSI's Brightfield One Solar Farm at ETPP repurposes land for renewable energy

Carbon Fiber Technology Facility for research and development, located at Horizon Center

Environmental Management Update - Progress Toward Cleanup for Reindustrialization

The **K-25 Demolition Project** is continuing at the East Tennessee Technology Park. The west wing has been removed and work is progressing on the east wing.

The **K-27 Facility** was integral in the gaseous diffusion process during the Manhattan Project. Demolition of K-27 is the next step in the clean up of ETPP.
